

PRO LIFE HEALTH PLAN

Dear Prospective Sales Representative,

Are you tired of representing GIANT Insurance Companies best interests rather than your clients? Do you feel strongly about offering alternatives to the traditional METAL Plans? Are you passionate about serving the FAITH BASED COMMUNITY?

IF YOU CAN SAY YES TO THOSE QUESTIONS... we need to talk !

Americas Benefit, a National Marketing Organization represents the **Pro Life Health Plan**. We have been in the Multi Billion Dollar Healthcare and Financial Services business since for over 25 years and can honestly say there's not been an opportunity like this one.

Never before have we seen the tension in the marketplace that exists today. The Affordable Care Act a/k/a "Obamacare" is creating waves and consequences that are far reaching for both the Broker and Consumer. This turmoil has created problems with rate increases, deductible increases, narrowing networks and more managed care restrictions. These problems need solved and so we are recruiting an army of men and women to carry our message in 24 states across this great Nation, with more to come in the future.

If you are interested in a legitimate Career Opportunity selling an affordable alternative to Obamacare in the Faith Based Community, please respond to this ad by calling our office or sending us an email immediately with your resume and contact information to **info@americasbenefit.com**

Our office is open Monday—Friday 9:00 am to 5:00 pm EST and our Phone number is 724.884.1498

We look forward to beginning that discussion with you as soon as possible
