Embracing Learning Styles, Giftedness, and Differences

Many of our students who attend TLE have been diagnosed with learning and cognitive differences, such as dyslexia, ADD, ADHD, anxiety, autism, sensory processing issues, or Asperger's. Many others are gifted or accelerated learners who desire to work at their own pace. We look beyond diagnoses and labels and seek to provide **unique learning experiences for each student** at TLE based on their individual learning needs. We provide multiple opportunities for movement each day, using a variety of whole-brain and multi-sensory approaches.
