

MOTIVATORS

The Seven Universal Dimensions

The perfect companion assessment to pair with DISC, Motivators measures the seven universal dimensions of motivation that exist within each of us. Where as DISC predicts “How” someone will behave, Motivators tells you “Why”. Being able to measure and understand How and Why someone will behave is vital to predicting the performance of job applicants, optimizing employee performance, building top performing teams, uncovering the source(s) of communicative dysfunction and developing self-aware leaders.

• Greater Detail

Our Motivators assessment measures seven universal dimensions, rather than the standard six. This provides you a much more detailed analysis by addressing the important differences separating the Political and Individualistic dimensions.

• Intuitive & Easy-to-Use

Our 21 page reports are straightforward and easy-to-use. This report does all the hard work for you by presenting it's findings clearly and using layperson terminology.

• Explore General Traits

The report provides a detailed analysis of the General Traits associated with each user's unique scores.

• Identify Key Strengths

The report presents an analysis of each user's Key Strengths, applicable to a variety of workplace and interpersonal settings.

• Motivational & Training Insights

Additionally, the report outlines tailored Motivational & Training Insights necessary to optimize workplace performance while simultaneously maximizing personal fulfillment.

• Self Improvement Insights

Furthermore, the report presents users with prescriptive recommendations for personal and professional growth.
