To Whom It May Concern:

During the Summer of 1983 in Angola, N.Y., I represented Hunt Engineers, P.C. as field representative for sewer main installation and road rebuilding of which Stock Services performed all the work.

After spending thirty four years in the field, I find it is seldom I can write a letter of recommendation; however, it is my pleasure to express that Stock Services performed in a professional manner. The workmanship being high caliber, blended with their expeditious performance. Therefore, I would highly endorse the engaging of Stock Services.

Sincerely,

HUNT ENGINEERS, P.C.
