1/4 RACK FRYER BASKET LOADING RECOMMENDATIONS

1. Chicken is to be placed on rail, hanging over slightly.
2. Use curve of chicken pieces to determine how to lay chicken on rack.
3. Tuck loose skin under bottom of chicken before placing on rack.
4. Load from the bottom up and unload from the top down.
5. After all chicken is placed on rack, check to make sure that pieces aren’t touching too much.

*Note: Above placement is Winston Recommendation only. Use Company SOP when applicable.

FINAL RESULTS!
