## JUVEDERM VOBELLA

Some women may wish to add subtle volume to their lips; others may want to soften the appearance of the vertical lines above them. Lines such as these are often caused by factors such as sun exposure or repeated muscle movement. Fortunately, there's JUVÉDERM VOLBELLA® XC—the first and only FDA-approved filler proven to increase lip fullness and soften the appearance of vertical lip lines for up to 1 year.

## JUVEDERM VOLUMA

JUVÉDERM VOLUMA® XC injectable gel is for deep injection in the cheek area to correct age-related volume loss in adults over 21. JUVÉDERM® XC injectable gel is for injection into the facial tissue for the correction of moderate to severe facial wrinkles and folds, such as nasolabial folds. JUVÉDERM® Ultra XC is for injection into the lips and perioral area for lip augmentation in adults over 21.

## JUVEDERM VOLLURE

Over time, your skin loses elasticity and moisture, which contributes to moderate to severe parentheses lines and wrinkles around the nose and mouth. While serums and creams can help moisturize the skin's surface, JUVÉDERM® XC adds volume to smooth these lines and folds, to help give you the natural-looking, long-lasting results you want.

## JUVEDERM ULTRA XC & ULTRA +

JUVÉDERM® Ultra XC adds more fullness and plumps thin lips whether your lips have thinned over time or you simply want fuller lips. Some people simply have naturally thin lips and just want to achieve a fuller appearance. Other people have noticed their lips thinning over time and may also have seen vertical lip lines become more noticeable. Whatever your unique needs are when it comes to your lips, the JUVÉDERM® collection may be able to help.

THE MOST  
BEAUTIFUL  
CURVE ON A  
BODY IS

Smile*

## BOTOX

BOTOX Cosmetics is a prescription medicine that is injected into muscles and used to temporarily improve the look of both moderate to severe crow's feet lines and frown lines between the eyebrows in adults.

## KYBELLA®

If you're bothered by the fullness beneath your chin, you're not alone. Fortunately, KYBELLA® can help. KYBELLA® is the first and only FDA-approved injectable treatment to improve the appearance of moderate to severe fat beneath the chin (submental fullness) by physically destroying fat cells. The in-office injection process may take as little as 15 to 20 minutes and will be tailored to your submental fat distribution and treatment goals.

# Treatments

## DERMAPLANING

Dermaplaning is a noninvasive skin care procedure that exfoliates the surface layers of the skin through the use of a scalpel, and reduces the appearance of deep, pitted acne scars, resulting in a smoother and more even complexion. Dermaplaning is designed to treat the small, but deep scars that sometimes result from cystic acne. Gentler versions of dermaplaning are sometimes used as exfoliating or vellus hair-removal treatments.

**WHO CAN HAVE IT?** Dermaplaning may be an attractive option for those seeking to improve the tone and texture of their skin, or remove deep scars from acne without the possibility of irritation from chemical peels and the expense of laser skin resurfacing. Although no treatment can fully eliminate all scars or flaws, dermaplaning typically produces excellent results.

## MICRODERMABRASION

Microdermabrasion skin rejuvenation is used as a method of exfoliation, as well as to treat light scarring, discoloration and sun damage and stretch marks. Treatments include using a minimally abrasive instrument to gently sand your skin, removing the thicker, uneven outer layer.

**WHO CAN HAVE IT?** The ideal candidates for microdermabrasion are healthy adults who have relatively minor skin conditions or imperfections, as well as realistic expectations about what microdermabrasion can and cannot do.

## MICRONEEDLING

Microneedling, also known as collagen induction therapy, is a minimally invasive treatment to rejuvenate the skin. A device with fine needles creates tiny punctures in the top layer of the skin, which triggers the body to create new collagen and elastin. Results can include improved texture and firmness, as well as a reduction in scars, pore size, and stretch marks.

**WHO CAN HAVE IT?** Microneedling is an excellent treatment to improve the appearance of acne scars, skin texture issues, fine lines and roughness.

## DERMAPEN MICRONEEDLING

The concept of skin needling is based on the skin's ability to repair itself whenever it encounters physical damage such as cuts, abrasions and other physical trauma. Immediately after an injury occurs our skin destroys old damaged tissue such as acne scarring and wrinkles and replaces it with new fresh healthy collagen. Skin needling allows for controlled induction of the skin's self repair mechanism by creating micro "injuries" in the skin which triggers a whole cascade of events that result in new collagen synthesis. The result is smoother, firmer and younger looking skin down the line. A great treatment for all skin types especially patients with acne scarring, enlarged pores and moderate to severe wrinkling.

## CHEMICAL PEELS

Our Chemical Peels represent the next generation in chemical peels. Each treatment is virtually pain free with results in as little as seven days. Unique from other peels, the VI Peel nurtures the skin with vitamins and minerals during the exfoliation process and can be used for all skin types; including darker skin tones. They offer specifically designed treatments that are targeted to address: anti-aging, hyperpigmentation, sun spots, damaged skin, acne prone skin, and acne scarring.

### VI PEEL®

**Anti-Aging ~ Rejuvenating ~ Restorative**

The VI Peel® contains a synergistic blend of powerful ingredients suitable for a variety of skin types. Specifically targeted to improve tone, texture, and clarity of your skin along with anti-aging benefits. It also rejuvenates the skin and helps protect against future damage.

### VI PEEL® PRECISION

**Anti-Aging ~ Reparative ~ Sun Damage ~ Body Treatments**

The VI Peel® Precision is a booster system formulated to be used in addition to the Veel Peel. It is made from the same synergistic blend of ingredients as the VI Peel and provides more volume for deeper penetration even for mature skin.

### VI PEEL® PRECISION PLUS

**Pigmentation ~ Acne Scarring ~ Age Spots ~ Lightening**

Uniquely formulated for treating pigmentation damage, this is a powerful booster system targeted to treat uneven complexions, including melasma. Added to the VI Peel®, it creates the ultimate treatment choice for dramatic results.

### VI PEEL® PURIFY

**Acne ~ Acne Scarring ~ Oily Skin**

A highly effective treatment for acne. It contains the original VI Peel® formula plus Benzoyl Peroxide, Kojic Acid and Hydrocortisone for superior, consistent results.

### VI PEEL® PURIFY WITH PRECISION PLUS

**Acne ~ Acne Scarring ~ Lightening**

This takes the power of Benzoyl Peroxide, Kojic Acid and Hydrocortisone with the Precision Plus booster to combat stubborn pigmentation, acne scarring and reduce the PIH acne may leave behind.

# Vampire Treatments

## VAMPIRE FACIAL™

The Vampire Facial™ has become popular thanks to celebrities having the procedure to keep their skin looking camera ready and glowing. The Vampire Facial™ is a procedure, which combines platelet rich plasma (PRP) with the use of sterile micro needle dermal stimulation.

There is difference between the Vampire Facial™ and The Vampire Facelift™. The Vampire Facial™ does not include any injection with a syringe. The PRP (platelet rich plasma) is spread over the skin and the fine needles of the micro needle device creates "entry pores" to the top layers of the skin. In a Vampire Facelift™, a syringe is used to inject PRP and/or PRFM (platelet rich fibrin matrix) under the skin.

The medical micro needle procedure using the Dermanen is a method of "collagen induction therapy" also referred to as "CIT". The small entries into the dermis cause the skin to respond with collagen, which softens the appearance of fine lines and wrinkles as well as superficial sun damage.

The platelet rich plasma (PRP) delivery to the dermis further enhances the micro needle treatment so collagen and other skin enhancing support is stimulated by the growth factors in the platelet rich plasma (PRP). The platelet rich plasma (PRP) also has factors, which stimulate blood supply to the skin. This creates a look of glow and luster to the skin, which is unique to platelet rich plasma.

The benefits of this treatment can be appreciated as soon as 1 week. The skin can continue to improve over several weeks and the benefits can last for months.

The Vampire Facial™ treatment is customized to the needs of the client. The Vampire Facial™ treatment can be used to improve the appearance of:

- Complexion
- Acne scars
- Chicken Pox scars
- Fine lines
- Sun damaged skin
- Brown discolorations

Typically, the skin can appear pink for about 1-2 days however, makeup can be worn the next day.

## VAMPIRE FACELIFT™

The Vampire FaceLift™ is a non-surgical, no downtime, form of facial rejuvenation that uses your own natural blood cells to lift and restore the healthy glow to the skin of the face. Jmarie Skin Studio offers the Vampire FaceLift™ to improve the skin of the face without invasive surgery. The aim is to make the skin appear younger with more volume, better color, and a healthy glow. The results can be impressive leaving you with a more youthful complexion and a radiant glow in the twilight! Good candidates for this procedure are men and women who are not looking for the dramatic results of a face lift or would never consider any other injectable fillers. Clients who are looking to give their face a more youthful and natural appearance are ideal candidates for the Vampire FaceLift™.

## WHAT MAKES IT UNIQUE?

The combination of products is what sets this technique apart from its facelift and injectable filler counterparts. The entire procedure takes about 45 minutes and starts with blood being drawn from the patient and centrifuged with platelets separated from the red blood cells. The platelets are then introduced to a calcium chloride solution, which causes the platelets to release growth factors. Small amounts of synthetic injectable fillers like Juvederm may be added to the mixture, if needed. Once all of the ingredients have been combined, a small gauge needle is used to inject the product into specific areas of the face, which has been numbed with a topical gel. The procedure is very tolerable with minimal discomfort and little downtime.\*

## WHAT IMPROVEMENTS CAN BE EXPECTED?

- Decrease the glabellar lines (the number 11 sign between the brow)
- Decreased the forehead lines
- Augment the cheeks and reshape the face.
- Decrease periorbital lines (crow's feet)
- Decrease Nasolabial folds
- Decrease smile lines
- Fill in acne scars
- Smooth the vermillion border (edge of the mouth)
- Decrease the marionette lines (corners of the mouth to the chin)
- Augment the chin

\*Individual results & experience may vary.

## PRP HAIR RESTORATION

At Jmarie Skin Studio, we have been performing PRP therapy as a proactive therapeutic option for male and female patients experiencing hair loss. PRP is an exciting non-surgical therapeutic option for patients who require stimulation of hair growth for hair loss conditions.

Recent scientific research and technology provides the medical community with new understandings of wound and tissue healing. As a result of these scientific studies, we recognize PRP is an all-natural autologous medical procedure performed for scalp, skin, and hair stimulation. While studies are slowly being published in the medical literature on the success of PRP, the hair restoration community remains cautious about making claims for hair restoration using exclusively PRP. In a recent study published in Dermatologic Surgery, physicians in Korea published data supporting the clinical application of PRP in hair restoration.

## HOW DOES IT WORK?

Human blood contains mesenchymal stem cells, and autologous blood products that contain essential and specific growth factors that assist in tissue regeneration and healing. Published medical literature from Europe and the United States confirms the safety and use of PRP therapy. It has been used as a medical adjunct therapy for over two decades for skin and wound healing. PRP therapy has established itself to be effective as a medical treatment modality in the specialty fields of oral surgery, neurosurgery, plastic and cosmetic surgery, sports medicine and orthopedics. It has been used extensively in these specialties for the last twenty years with generally positive outcomes and success. In the field of hair restoration, evidence supports PRP therapy as a promising treatment option to promote hair growth. No claim can be made of its efficacy. While PRP is in the early stages of scientific research in hair restoration, PRP is not meant to replace current FDA approved therapies such as DHT blockers and Minoxidil. But it is a promising non-surgical therapeutic option for those patients with hair loss.

The decision to use PRP is a personal decision and should be made after careful research, consideration and consultation with a physician. PRP is safe and natural because the procedure concentrates the good cells from your scalp and injects them directly back into the area where it is needed. There is absolutely no chance of getting a blood infection from another human being. PRP involves using your own cells that are not modified or changed, and it will not be rejected by your immune system.

Extensive clinical trials are not complete and medical data is not yet published to establish the absolute effectiveness of PRP therapy in hair restoration.

## VAMPIRE BREASTLIFT

The Vampire Breast Lift is a non-surgical, no downtime, form of breast rejuvenation that uses your own natural blood cells to lift the breast and nipple. There are women who cannot afford to take time off from work to recuperate from an aggressive surgical procedure like a breast lift. While women may like the size of their breasts, some would like more pronounced cleavage or more volume at the top of their breasts. Jmarie Skin Studio offers the Vampire Breast Lift to improve the shape of the breasts without invasive surgery. The aim of the Vampire Breast Lift is to do what a well-made bra would do; provide lift and cleavage. Good candidates for this procedure are women who are not looking to dramatically change the size of their breasts. Women who are looking to give their breasts a more youthful appearance are ideal candidates for the Vampire Breast Lift. Like other Vampire Procedures, the Vampire Breast Lift injections will last about 12-24 months, depending on individual patients.\*

## WHAT MAKES IT UNIQUE?

Blood is drawn from your arm, in the same way it would be for a normal blood test. Once blood has been collected, it is then centrifuged and the platelets are separated from the red blood cells. The platelets are then introduced to a calcium chloride solution which causes the platelets to release growth factors. Once all the ingredients have been combined, a small gauge needle is used to inject the product into specific areas of the breast which has been numbed. The procedure is very tolerable with minimal discomfort and little downtime.\*

## RESULTS

We believe the best part of this procedure is that it's getting back to what beauty is all about. The Vampire Breast Lift works at the stem cell level, generating new tissue. The procedure brings sensation back into the breast, areola and nipples.\*

- Firmer more shapely breasts
- Produce lift and rounder cleavage
- Restore sensitivity lost through breastfeeding or previous implants
- Perkier nipples and increased nipple sensitivity
- Smoother Skin
- Fill in implant "rippling"
- Lift inverted nipples

\*Individual results and experience may vary.

# Facial *Rejuvenation*

## ANTI-AGING FACIAL

Our skincare's highly effective process utilizes AHA blends, nutripeptides, retinols, lightening agents and anti-oxidants to produce younger looking skin. Skin that looks older, photo-damaged, pigmented, dull or tired will be rejuvenated with the use of these innovative anti aging products. This service helps to treat and prevent fine lines, wrinkles and other signs of aging due to environmental exposures.

## ILLUMINATING FACIAL

This facial uses a combination of powerful peptides that inhibit tyrosinase production to reduce pigmentation and lighten your skin. Lightening agents that reduce melanin production on a cellular level. An exclusive blend of natural plant extracts to further suppress pigmentation through decreased tyrosine enzyme production. Plant-derived stem cells prevent further damage and preserve youthful skin cells leaving your skin with a radiant glow.

## ANTIOXIDANT FACIAL

Our anti-oxident product line offers skin care with antioxidants that is ideal for dry/dehydrated, rosacea-prone and sensitive skin due to harsh environmental stressors. A rich blend of natural botanicals creates a soothing and healthy way to improve skin. This service is high in anti-oxidants for ultimate protection and nutrition.

## ACNE FACIAL

Our acne blend is effective skin care for acne that reduces inflammation, eliminates excess oil and purifies skin. This highly effective acne treatment utilizes the most effective acne fighting ingredients and potent anti-inflammatory botanicals.

## MAX STEM CELL FACIAL

Our latest advancement in anti-aging. This exclusive treatment supports skin's natural defense mechanisms and repairs cellular damage. It delivers unsurpassed preventative measures against the effects of aging with a unique blend of plant-derived stem cell technology and nutripeptides to help plump your skin. MAX is specially formulated pure, active ingredients provide protection at the cellular level against nutritional imbalance, oxidative stress and UV damage.

PEOPLE WILL STARE,

*Make it  
Worth their  
While*

## DR HAUSCHKA INSPIRED EUROPEAN FACIAL

Relaxation begins with a warm sage facial bath and moisturizing treatment for the legs, feet, arms and hands. The face is cleansed following warm aromatherapy compresses. Gentle, rhythmical hand and brush strokes stimulate the movement of lymph. Next, your esthetician applies a nourishing mask specific to your skin condition followed by a décolleté massage. Stress and tension melt away, and you leave with renewed energy and a radiant complexion.

## 02 LIFT FACIAL REJUVENATION

Imagine releasing fresh, healthy skin hidden below layers of older skin cells with a process that's both gentle and invigorating. Using oxygen, plant-derived stem cells, peptides and specially concentrated enzymatic botanicals, this facial delivers a premium spa experience with immediate results. This anti-aging, luxurious spa treatment produces gorgeous luminous skin that feels as healthy as it is radiant.

## ENZYME FACIAL

By removing the external, dead layer of your skin will create a brighter and smoother skin. The enzymes used are effective as exfoliants and anti-inflammation agents. They also break down keratin protein naturally occurring in your skin to create a smooth and glowing look. Added protection against damage from the sun, free-radicals, and even acne gives you benefits long after the treatment.

# Men's Services

## GENTLEMAN'S FACIAL

Following a thorough skin analysis and consultation, an optimal facial treatment will be designed for you considering the specific needs of a gentleman, resulting in a visible improvement in your skin's tone, texture and complexion.

## GENTLEMAN'S BACK FACIAL

Deep cleanse with steam to lift impurities, exfoliate with organic orchard ingredients followed by gentle extractions. A back massage and an application of a warm mask on your back, arms and elbows will detoxify and relax tired muscles. A toner and hydrating crème leave your back feeling vibrant and healthy.

# Waxing & Tinting

## BEFORE YOUR WAXING APPOINTMENT

Most women will say that getting waxed hurts. We don't disagree, but we attempt to deliver a nearly painless waxing experience. A big mistake many women make before getting their first wax is shaving. For optimal results, it's best that the hair is at least 1/4 inch long.

### **BODY FIRMING DETOX**

Refine and firm body contours and promote detoxification as you re-energize. An exclusive dry brush technique and nutrient-rich algae wrap helps exfoliate the skin, stimulate lymphatic drainage, promote circulation and activate lipolysis with ginger and caffeine. This treatment leaves you remarkably firmer and more energized.

### **BODY SCRUBS**

Natural exfoliants smooth and refine skin texture, stimulate circulation and leave the skin soft, refreshed and rejuvenated.

### **ILLUMINATING BODY TREATMENT**

Illuminate your body from head to toe with this results-driven treatment. This multi-active experience incorporates an exfoliation and a stimulating body buff intended to improve texture and brighten skin, followed by a peel. Indulge in the 90 minute version with an express brightening facial and décolleté treatment, leaving you with vibrant skin that has an unmatched glow.

# Makeup

## MAKEUP LESSONS

Our makeup artists do not only want you to look beautiful once. Instead, we empower every customer to understand how they can continuously apply makeup to feel personally beautiful. Makeup lessons are one of our most sought after services with Jessica. Throughout our makeup lesson, you are instructed in the finer details of makeup application, trained in various techniques, and taught about how different makeups can impact your skin. Our private makeup lessons are the perfect way to treat yourself or another.

## ALL INCLUSIVE BEAUTY PACKAGE

Here at Jmarie Skin Studio, We pride ourselves on providing five star service exclusively for your photo shoot. Our makeovers are one of a kind, we use the finest skin care products to give you a refreshed and natural glow. Our makeup products are top of the line and are specifically formulated for photography. We will contour, highlight and apply lashes to really make your eyes pop in photos. We will include some basic hair styling and the overall look will have you look STUNNING & CLASSY at the same time. We use all high-end brand products, however, if you have skin sensitivities, we can attempt to use your own products. We will contact you prior to your session with Jmarie Skin Studio to discuss the look you are going for and ensure we select the perfect color combination for your shoot. The vibe of your session is very upbeat and energetic! Get ready for a fun, creative and exciting day!

Every makeup application is uniquely built around your style, desired appearance, and your foundation. There is no one right way to create your beautiful makeup design. Our team specializes in working with our customers. You are our partner in creating a look that works for you.

All makeup applications utilize a custom blend of the highest quality products. Our applications are designed by experts for you, ensuring you a one of a kind, beautiful look you could not find anywhere else.

# My Story

## JESSICA BROCK

Hello, my name is Jessica Brock and this is my story. All I have ever wanted to do was help people, and it surprised no one that I chose a medical profession. For nearly two decades, I worked as a phlebotomist delivering IV nutrients to chronically ill and cancer patients and as a medical assistant at a busy Urology practice and Medical Spa. I spent just over a decade managing a Urological Oncology Clinic and Medical Spa. It was a wonderfully rewarding job, and I had a wonderful opportunity to work with some of the most talented practitioners in our state. After a few years, I decided to follow my heart and find a different way to help people.

I have always been passionate about my education, and continued to studying and training under some of the best trainers in the world. It was while I was at Great Alchemy Med Spa, I earned my certification in Botox and Dermal Fillers through Empire Medical and Allergan. I also earned my Platelet Rich Plasma certification from Dr. Charles Runels, the inventor of the Vampire procedures and then I had the privilege to work alongside Dr. Emilia Ripoll, one of the country's elite trainers in Platelet Rich Plasma.

Yet, I wanted to continue to study, and find more ways to help people. I wanted to help women feel beautiful and regain their confidence. I studied at School of Botanical and Medical Aesthetics to obtain my Esthetician License. I also became certified in permanent cosmology. I am a member of the Associated Skin Care Professionals, the largest and most recognized network of skin care professionals.

Shortly after that, I embarked on my greatest journey yet. I started my medical spa, Jmarie Skin Studio. It has been the best decision I ever made. While it is important to address the cosmetic issues like fine lines and wrinkles, it is equally as important to address the overall health of the skin. I use a blend of medical and botanical aesthetics to help people feel beautiful again and get the skin back to health.

I have been able to hone my skills by performing facials, chemical peels, micro-needling, permanent makeup artistry, body treatments, platelet rich plasma, dermaplaning, microdermabrasion, waxing services and injectables along with other skin care treatments. Additionally, I work with each individual to come up with a unique healthy skin care regimen that they can easily maintain at home and keep their skin glowing and beautiful. I attribute my success to my perseverance, dedication to continue my education, and my passion to help women find their confidence in their bodies.

Currently, I am working towards my nursing degree. I want to be able to become a nurse practitioner and complement my work now. I want to be able to offer nutritional counseling, along with other medical treatments, and help my clients truly become healthy, beautiful people.

## VISION

My passion is helping people integrate optimal skin care, healthy habits, and empowering nutrition into their lives to feel, look and be their best! I offer a wide variety of services, mixing medical with botanical treatments. Everything I do is unique to each client, factoring in all of their needs, to help get their bodies healthy from the inside out. From offering organic and natural skin care to injectables like Botox and fillers to reduce any fine lines and wrinkles. I want anyone who comes to me to leave feeling beautiful.
